## GANA KIRITHARAN'S INTELLECTUAL CONTRIBUTIONS IN SRI LANKA.

Gana Kiritharan born and grown up in Sri Lankan and lived in that country until 1996. During his schooling period, from his 5<sup>th</sup> Grade scholarship exam to 12<sup>th</sup> year University entrance exams he always showed his talents and capacity. He was selected for Medical Studies in a very competitive exam and continued his studies under civil war conditions.

After 1983 communal violence, when Sri Lankan Community got divided across ethnic line into Tamil and Sinhala, Gana Kiritharan mainly stayed with Tamil community because he is ethnically a Tamil, his home situated in Tamil community area and his Medical School also located in Tamil Community area. After Gana Kiritharan's selection medical school was confirmed, from 1986 he made lots of contributions for Sri Lankan Tamil community. He worked with several non-governmental institutions and mainly made medical contributions to war injuries, refugees and general public. Also he made critical analysis about civil administration and economy, which may helped to build the civil infrastructure of Tamil Community. Gana Kiritharan was never military trained, never carried a gun and never killed or injured any body.

Gana Kiritharan, when leaving Sri Lankan in 1996 expected financial help from his family members living abroad for his studies and future. But when he failed to receive enough support he send several letters asking financial support from his friends in Sri Lanka but failed to receive any reply. **The money got concealed in TD Canada Trust may be the money sent by Sri Lankan Tamil community members or Diaspora Tamil community for Gana Kiritharan's studies and personal life.** When Gana Kiritharan asked for a public recognition for his contributions for the Tamil Community, his friends may take an exceptional step. The first Tamil film shot in Tamil home land "Aanivaer (Taproot or Phoenix)" may be based on events happened in Gana Kiritharan's personal and public life and an informal recognition for Gana Kiritharan.

Gana Kiritharan get informed by Mr. John Mahendran (Author and Director of the Movie Aanivaer) that his beleive about the Movie is not True. For Details Information Please Refer Affidavit of Document 12 Civil.

## GANA KIRITHARAN'S INTELLECTUAL CONTRIBUTIONS IN INDIA.

In 1996, Gana Kiritharan's Medical Studies was disturbed and he was displaced from his home due to a major military operation in Tamil areas of Sri Lanka. After working with Non Governmental Institutions for few months he moved to India as a refugee. When moving to India though Gana Kiritharan planned to stay for few months, because of immigrations delays he stayed there for 2years (1997 & 1998). When going to India he did not have the introduction of anybody in that country. But during the two years stay he developed several friends at professional level and personal level. Also Gana Kiritharan was able to fulfill his Educational ambitions in India. There he Studied M. A. Sociology and Computer Applications.

Gana Kiritharan wrote his first book after coming to Canada. But when he failed to find a publisher or market in North America, he searched and found a publisher in India. Now Gana Kiritharan's book runs 4<sup>th</sup> success year of sales. But he is facing problems regarding books sales figures and royalty being paid. The details of the major interferences as follows:

1. Gana Kiritharan's publisher has so far printed four prints of his book. They were reporting that they printed 500 copies in each print. This figure is questionable as publishers usually print 3000 copies or more in each print and if you ordered for 500 copies you will receive either few copies more or few copies below that figure. Very rarely you will receive exact number of the copies.
2. According to Gana Kiritharan's publishers Gana Kiritharan's book first came to market in April 2003 and they are only printing and distributing in one cover price that is 250.00 Indian Rupees (5 – 6 US Dollars). But according to information gathered from Internet, Gana Kiritharan book is being distributed from United Kingdom with slightly altered author's name that is G. Kiruthanan and a different publisher name (Sangam Books Ltd). This book bears the same ISBN (81-7476-421-6) of that book being published by his India publishers. This books official publishing date 15<sup>th</sup> November 2003 and being soled for 30 US Dollars or above.
3. Also in India, New Delhi Gana Kiritharan's book is being distributed with different ISBN (1-894727-01-0). This ISBN was used by Gana Kiritharan to self-publish same book in 2001. In one point it was possible to buy this book from 5 different distributors on Internet.

**Money got concealed in TD Canada Trust may the money received from these irregularities.**

## GANA KIRITHARAN'S INTELLECTUAL CONTRIBUTIONS IN CANADA.

Gana Kiritharan came to Canada as a Group Sponsored Refugee in February 1999. First major problem he experienced here may be the failure to recognize his foreign degree and foreign experience by Canadian institutions. As a result Gana Kiritharan forced to accept works do not correspond to his professional education or experience. Despite this he made intellectual contributions for the institutions he worked and for Canadian society as a whole.

One of the documented contributions may be his innovative contribution for the improvement of the quality of production at the first job he did in Ottawa. When Gana Kiritharan came to Canada the first job he got was Assembler position in JDS Uniphase Inc, Ottawa, Canada. From March 1999 till October 1999 he worked there through Olsten Staffing Employment Agency. Then from October 1999 till February 2000 he worked as a permanent employee with the Company. When working there Gana Kiritharan identified improved production process and trained coworkers in this production process which helped to improve the quality of the department from around 85% to around 95%. The management failed to appreciate Gana Kiritharan's contribution, they also failed to respect a job promotion request Gana Kiritharan made. When they failed to respect a request to change shift from night to afternoon Gana Kiritharan quitted that job and find other jobs. Despite this experience Gana Kiritharan continued to do the jobs he assigned with maximum possible responsibility and made innovative contributions whenever possible.

In addition between November 2002 and October 2003 Gana Kiritharan realized conversation between him and his friends who were teachers or students at Ottawa, Carlton Universities was being recorded by a group of people with the Idea of benefiting from Gana Kiritharan's intellectual works. **The money got concealed in TD Canada Trust may the payment for these contributions Gana Kiritharan made for Canadian institutions and society.**

## STEPS TO IMPROVE WAXING TECHNIQUES TO PREVENT STAINING AT ZERO DEGREE.

The procedures you are following during waxing are good and please follow them as stated in the schedule. But still there is water stains in the 320s degree, To prevent that take care and follow the following procedures while

- your waxing procedures.
- ① Always wear gloves <sup>in both hands</sup> during all procedures in waxing.
- ② If you suspect the LAP will slip and/or will fall into the oven - put a <sup>olive</sup> ~~olive~~ <sup>around the</sup> ~~the~~ <sup>made by</sup> ~~made by~~ <sup>aluminum</sup> foil around the ~~LAP & WAFER~~ <sup>LAP & WAFER</sup> that (It will save lot of time and prevent cracks in lenses)
- ③ After waxing with wax jig look at ~~the top~~ <sup>the top</sup> ~~off~~ and if ~~not~~ there are holes - fill <sup>them</sup> with wax.
- ④ While sealing the center - put enough wax - to prevent bracketing of the center while lapping & polishing of lens.
- ⑤ After the batches are cool down enough - always do a QC. with microscope. Check every batch and every single lens under the microscope.
- ⑥ If you found any holes - put enough wax around it and heat the batch in New oven for 20 minutes.
- ⑦ While cleaning for taking Clean ~~sample~~ with Kimwipe enough - use new tissues for every batches. After cleaning every batch once - Remove the wax in glove and on the cleaning place [with acetone or by changing of] and clean the batches once again with acetone and new Kimwipes each time.
- ⑧ While taping use the thumb to pull the 3 <sup>off</sup> [it only gives enough pressure] and Tape in 3 layers. first layer in middle - 2nd layer in top and 3rd layer in bottom

**STEPS TO IMPROVE WAXING TECHNIQUES TO PREVENT STAINING AT  
ZERO DEGREE**

The procedures you are following during waxing are good, and please follow them as stated in the process control manual. Yet there are still patch stains on the zero degree side. To prevent patch stains, take care and follow the following procedures while waxing.

- Always wear gloves on both hands during all procedures in waxing.
- If you suspect the LAP will slip off the WMP while in the oven put a sleeve around the bulk lens assembly. (This is made with aluminum foil; it can save a lot of time and perhaps prevent chips and cracks.).
- After waxing with the waxing jig, look at the surface of the batch, if there are any holes fill them with wax at this time.
- While sealing the center, use enough wax. This will prevent possible breaking of the center while the batch is being processed in LAPPING and POLISHING.
- After the batches are cooled down enough to handle, always do a QC using the microscope. Check every batch, and if possible, every single lens.
- If you find any holes, put enough wax around that lens and reheat the batch for 10 minutes in the new oven.
- While cleaning the batch for taping, use Kimwipes, and remember to use a new one for every batch (even 2 or 3).
- After cleaning every batch once, clean all around the area you will be taping (to make sure there is no wax or dust around), then change your old gloves for new ones. Then clean the batches again.
- While taping use the thumb to pull the tape, and tape in three layers. First layer in the middle, the second layer above the first, and finally a third layer below the other two. (This is for regular sized plates:LAP).

## Copyright of Idea and Theory.

Copyright laws including Canadian copyright law explicitly says “Ideas” do not have copyright. But Gana Kiritharan claims his intellectual works are more organized form of concepts and they are political and economic “Theories”. These Political and Economic Theories are created by Gana Kiritharan during his education, research and reading of past several years. These theories can be expanded into books and Gana Kiritharan planning to write books based on these theories. If Gana Kiritharan fails to be confirmed to be the owner of these Theories it will seriously affect his writing career.

Merriam – Webster dictionary explain these words as follows.

**Idea:** A formulated thought or opinion.

**Theory:** The analysis of set of facts in their relation to one another.

Let us explain this difference with a simple example.

Two girls A and B were preparing for a short story competition. Just before competition to start Girl B asked Girl A “What you are planning to write?” Girl A replied “I have a Idea of Elephants in the Moon”. Then the Girl B said “What a surprise I also have same Idea.” Then the competition goes on and Girl B wins the first price, but Girl A was disqualified. Here Girl A can not claim that she only said first she has the Idea so she should be the winner.

Let explain Gana Kiritharan’s situation with same words.

Gana Kiritharan is very interested in Physics and Astronomy and was studying, researching and reading a lot in these subject matters. His favorite subject matters “Lives in the Moon.” A group of people know about Gana Kiritharan’s research like to know about his findings. They ask Gana Kiritharan’s friend Mr. Mohammad Hashemi and Mr. Massoud Khazabi to talk about his researches and try to find out what Gana Kiritharan has invented. They promise to pay some money for Gana Kiritharan for his work. On the group request Mr. Mohammad Hashemi and Mr. Massoud Khazabi talk to Gana Kiritharan about his research and ask what his findings are. Gana Kiritharan said that from his research he found out there are Elephants in the Moon.

As promised the Group deposited a small amount of money in TD Canada Trust in Gana Kiritharan’s name, but conceal this money from Gana Kiritharan’s attention and he failed to receive any benefit from the money.

Then the group sends some rockets to moon and found out there were Elephants in the moon as Gana Kiritharan said. They bring these Elephants to earth and saving billions of dollars.

The Questions are whether Gana Kiritharan has the right to claim to be the person who said that there were elephants in the moon and a fair share from the billions of dollars being saved.
